

## CHANGES CONSIDERED IN THE MONEY BILL

IMPORTANT MODIFICATIONS DISCUSSED BY SENATE BANKING COMMITTEE.

## APPROVED BY WILSON

President Has No Objection to Reduction in Number of Regional Reserve Banks and Other Features.

[BY ASSOCIATED PRESS.] Washington, Oct. 21.—While the hearings on the currency bill before the senate banking committee may not end before Saturday, amendments have the attention of the members.

President Wilson's intention that he will not object to changes in the personnel of the federal reserve board and a reduction in the number of regional reserve banks, has made it practically certain that the desires of many senators to make those changes will be carried out with the prospects of administration approval.

Many other important modifications will be taken up when committee work begins on the measure next week. Among the proposed changes is one that will go to the very basis of the bill, the provision authorizing the re-issuance of currency by the federal reserve banks.

The house provision, some witnesses have held, was too broad, allowing practically all paper of certain maturities designated to be discounted. Others, particularly representatives of smaller banks in the middle west have contended that the re-issuance provisions would be useless to them.

Other amendments. Senators Bristow, Hitchcock, Reed and Nelson have shown an inclination to extend the length of the maturity of a certain percentage of the paper the reserve banks might discount to enable country banks holding short-term notes to enjoy the advantages of a new system.

Some amendments along this line coupled with a more definite designation of "commercial paper" probably will be written into the bill. Plans of administration leaders in the house for a thirty day recess were abandoned today because Republican Leader Mann refused to yield, in his determination to keep the house in session as long as that session would action on the currency bill in committee.

"I am willing to stake my legislative judgment for all time to come on the proposition that the proposition that the currency bill will not be reported by the president says, the first week in November, or that it will be passed in the senate within three weeks thereafter," declared Mr. Mann. "I am also willing to stake my judgment on the proposition that it will not be passed in December. Everybody knows except the president that the bill will not be passed now, and if congress wants to submit it to the direction of the president and remain in session we ought to fish or cut bait."

The woman was confined for a time in the state penitentiary at Lincoln, but she gave officials there so much trouble that doubts were raised as to her sanity and she was transferred to the asylum here. ## SULZER'S CANDIDACY WILL MAKE TROUBLE FOR THE DEMOCRATS

Will Be Big Factor in Race for Speakership if Elected—Gets Republican and Progressive Support.

[BY ASSOCIATED PRESS.] Albany, Oct. 21.—What will be the outcome of William Sulzer's candidacy for the legislature? This was the question foremost in the mind of politicians around the capitol today. It was generally agreed that he will make a great deal of trouble for the organization in New York. His campaign will be directed especially against Warren J. Leary, who is a candidate for municipal judge, and Alfred B. Smith, the speaker of the assembly, who runs to succeed himself.

Sulzer intends to invade their district, and to square accounts with them, for their active part taken in his impeachment. And of course in that, he will oppose the democratic organization candidates generally. Even Sulzer's worst political foes practically conceded him victory in the race to elect a speaker. They were inclined to regard the withdrawal of the republican candidate, as a trick intended to damage the democratic party. There was no doubt expressed that the republicans will work hard for Sulzer, in the belief that he will repay them amply, by his attack on Tammany Hall in case he reaches the assembly.

The question which caused the greatest worry is how many votes Sulzer would be able to claim for his speakership candidacy in case of his election? The cry of opinion was that the assembly probably will be divided among the three parties, and that this stage is the worst. Sulzer is able to muster the undivided support of one section and a few insurgents from the others, he would prove a big factor in the race.

A majority of the assembly is reported to elect a speaker, and only a landslide for one party can prevent a long deadlock if Sulzer wins. Sulzer himself does not admit that he has represented the democratic party, after accepting the progressive platform, and the republican endorsement.

He argued that the statute under which he was indicted was aimed at persons sending literature dealing with vicious and degrading uses of drugs and not papers or pamphlets of the nature of his magazine.

## CHINA IS SOLVING HER NEW PROBLEMS IN AN ABLE MANNER

Oriental Republic is Gaining Strength Under the Able Leadership of Yuan Shikai and Other Patriots.

[BY ASSOCIATED PRESS.] Peking, Oct. 21.—Present struggles in China are believed to be resulting in the consolidation of power, and the disintegration of China, the overthrow of the Manchu dynasty, among left many unsolved problems, among them the following: Should the new government be monarchical or a republic? Should the capital be at Peking or at Nanking? Should the ruler be Yuan Shikai or Sun Yat Sen? Should the central government be strengthened or should China remain a loose aggregate of semi-independent provinces?

These problems were settled, not by force, but by compromise in which the views of the south were accepted on the fiercer and most important problem as to the form of government and those of the north on the second and third problems: while the fourth problem, the relative strength of the central government and the provinces, was left unsolved. These conclusions were reached by the consent of Yuan Shikai to the adoption of the republic and by the decision of Liang Hsiang-shan, who had charge of the revolutionary forces, and of all the more thoughtful leaders of China in favor of Yuan Shikai for the presidency.

Problem of Finance. The first problem which confronted Yuan Shikai as provisional president and the new government was the problem of finance. Fortunately, the finances of China in general, and this stage is the worst. Sulzer is able to muster the undivided support of one section and a few insurgents from the others, he would prove a big factor in the race.

A majority of the assembly is reported to elect a speaker, and only a landslide for one party can prevent a long deadlock if Sulzer wins. Sulzer himself does not admit that he has represented the democratic party, after accepting the progressive platform, and the republican endorsement.

## EXPERTS DISCOVERED POISON IN STOMACH OF DEAD ADMIRAL

Testimony in Eaton Case Also Shows Wife Talked of Husband's Threatened Suicide.

[BY ASSOCIATED PRESS.] Plymouth, Mass., Oct. 21.—Conditions in the household of Rear Admiral Joseph Giles Eaton prior to his death by poison last March were described by neighbors at the trial of Mrs. Jennie Mae Eaton, the widow, today.

Mrs. Charles M. Hill testified to conversations with Mrs. Eaton in which the defendant had said that she was suicidal and that she feared he would poison her mother.

Mrs. William McGoun told the court of a strange preparation which Mrs. Eaton said the admiral had mixed for dinner, her daughter by a former marriage. The mixture, according to the witnesses' remembrance of what Mrs. Eaton had told her, contained soap, vinegar and either pepper or salt.

Mrs. Addie C. Correll of Hingham, who was with the Eatons for a time when Mrs. Eaton was not living with her husband, testified that she had never seen any signs of liquor on the admiral nor any indication that he was of unsound mind.

Frank L. Booth of Rockland, said that Mrs. Eaton had told him her husband was trying to poison her, and that although she sprinkled talcum on him, she was unable to track him to the place where he concealed his drugs.

Mrs. Grace E. Booth and Mrs. Maude Powers, twin sisters of Rockland, testified that Admiral Eaton was always generous, never interfered about the bakery, and never tried to flirt with them.

It had been brought out that Mrs. Eaton had complained of her husband's alleged attention to the sister of her late husband.

Frank S. Alger, a retired newspaper man testified about conversations with Admiral and Mrs. Eaton. The admiral said he objected to having June in his household because of a story she had circulated about him.

Mrs. Eaton complained of her fears that her husband would poison her. Alger said he did not consider Admiral Eaton insane, but thought he showed certain peculiarities of speech and manner, due possibly to long service in the navy.

## SEALER A SOLDIER; HE MUST FACE DUTY

J. G. Emery Explains Duties of Sealers of Weights and Measures at Madison Convention.

[BY ASSOCIATED PRESS.] Madison, Oct. 21.—One hundred state and city weights and measures officials gathered here today for a two days' conference. The right and duties of sealers were explained in the light of legal opinion by J. G. Emery, state superintendent of weights and measures. The sealers have no right of arrest of a sealer, he said. "He must face duty however unpleasant and if he cannot to that he is unfit for his position. When he begins to play the shirk he is no longer a sealer."

Emery said he was proud of the men engaged in this work in the state. I know of many who have been met with dogs, clubs, pitchforks and whistles. I know of many who have been threatened with violence by the rights of dealers, but who did not flinch in the face of their duties."

## SMALL ATTENDANCE AT SUNDAY SCHOOLS

Falling Off of 16,000 in Last Three Years Reported in Episcopal Church in the United States.

[BY ASSOCIATED PRESS.] New York, Oct. 21.—A loss of more than 16,000 pupils within the last three years from the Sunday schools of the Protestant Episcopal church in the United States was reported to the general convention of the church today by the committee on the state of the church. The report asserted that the Sunday schools throughout the country had on their rolls today fewer names than they had in 1910.

"Apparently there is a loss of 925 in the number of children," said the report continued. "There are also fewer children in parochial schools. We must check this wasting of the Body of Christ. We must follow up and hold these members. We must conserve our resources."

The new church policy of confirmation as advocated by the committee, urged the tracing of members who leave the city for another so that they may be brought into the church again in their new home. Making the Sunday schools more attractive was another recommendation.

"While there had been a loss in the Sunday school," the report added, "there had been a gain in communicants."

## URGES INSPECTION OF HEATING PLANTS

State Fire Marshal Calls Attention to Defects Which Are Responsible for Heavy Losses.

Defective furnaces, boilers, stoves and fireplaces; stoves, stovepipes and hot-air pipes too near woodwork; defective chimneys, sparks from chimneys and chimneys burning out, and placing ashes in wooden receptacles, on wood floors or against wooden walls, last fiscal year, were responsible for 595 fires in this state, over 24 per cent of the total number of fires, and a waste of \$69,450, or over 18 per cent of the total fire losses.

These fires were responsible for snuffing out many human lives. Ordinary care and timely repairs would have prevented most of this fire waste and loss of human life.

The danger season for this class of fires is fast approaching, so do not delay to have your heating plant inspected by a competent man, and make repairs as soon as possible.

Consider carefully the following questions:

Have you a metal stove board under the heating stove?

Is all woodwork within two feet of the stove protected?

Is the stove free from cracks and breaks?

Is the stovepipe clean, sound and perfectly joined and tight?

Have you protected all woodwork within eighteen inches of the stovepipe?

Is there a ventilated, double thimble around the pipe where it passes through a partition?

Is the chimney clean, is it free from cracks, and is the mortar between the bricks still sound?

Does any woodwork come in contact with the chimney?

Are any fine cracks papered over, covered with wood or stuffed with rags?

Does the wallpaper come up against the stovepipe?

Have you protected the ceiling over the boiler or furnace and the walls near either?

Have you protected the woodwork above and near the smokestack?

Are you overheating the stove or furnace, or leaving drafts wide open?

Have you metal receptacles for ashes? Do you dump ashes on wooden floors or against wooden walls, partitions and fences?

Do you deposit rags, waste paper and other trash in the stove?

Do you keep the boiler room free from combustible rubbish?

Safety along these lines means protection of your property and the lives of those dear to you, so inspect all these things and exercise due care.

CLEM P. HOST,  
State Fire Marshal.

## DESIGNATE JUDGES OF JUVENILE COURT

Judge H. L. Maxfield to Act in Capacity in This City and Judge J. B. Clark in Beloit.

Judge Harry L. Maxfield and Judge John B. Clark were appointed judges of the juvenile court for Rock county at a meeting of the judges of the several courts of record in the county held at the court house yesterday afternoon. This action was taken under Section 573-2 of the revised statutes of Wisconsin for 1911.

Judge Maxfield will hear and determine all cases coming under this act brought before him in Janesville, and Judge Clark will have similar jurisdiction in the city of Beloit. Both judges are appointed and designated to act as judges of the juvenile court for the period of one year and until the further action of the judges of the courts of record and to have jurisdiction of cases arising under the juvenile court act co-extensive with their jurisdiction in other criminal cases. The certificate of appointment is signed by Circuit Judge George Grinnell.

County Judge Charles L. F. L. Maxfield, judge of the municipal court, city of Janesville, and J. B. Clark, judge of the municipal court, city of Beloit.

**BULLDOG JOE KNAUTH USES GUN AND PAYS HEAVY FINE**

"Bulldog Joe" Knauth ran up against the law again last Saturday night when he shot up a Beloit saloon and made himself generally disagreeable. He was arrested, and in the municipal court Monday morning paid a fine of \$20 and costs, amounting to \$24.40.

When he was arrested and searched besides the revolver, the police found five gold watches on his person.

Three were marked all the way from three to nineteen jewels. Chief Justice became suspicious of the timepieces, and took them to a local jeweler for examination. The jeweler pronounced the "jewels" to be of red celluloid in place of the rubies they were supposed to be. With the revolver were seventeen .33 caliber cartridges, all ready for business.

The revolver was stained with blood, for Joe had cut his hand during the stirring events of the evening and appeared in court Monday morning with the injured member bandaged up.

Joe claimed that he meant no harm when shooting the gun, but he paid his fine without a protest.

## COMPLETE REPAIRS WISCONSIN STREET

Defects in Asphalt Macadam Pavement Between South Second and South Third Streets.

Remedied.

Repairs to Wisconsin street between South Second and South Third streets were completed on Sunday.

In a few spots old material was taken out and replaced with new, a coat of new crushed and screened granite was put over the weak spots, and the entire surface of the street was given a seal coat of asphalt. The defects were not as many or as serious as had been feared and the pavement is now in first class condition. Twenty-five tons of material, or approximately five tons of asphalt, were used. The work was done by the city at the expense of the contractor, A. E. Rutledge of Rockford, the money used being that retained by the city from the amount paid the contractor to insure a satisfactory completion of the pavement.

The asphalt heating kettle has been removed to South Division street between St. Lawrence and South Second streets and the pouring of the material will begin as soon as the stone is entirely dry. Two and a quarter gallons per square yard will be required for binder and one gallon per square yard for seal coat. The asphalt used is of a higher grade than that used heretofore and the sample sent to Chicago for test was up to the specifications. The seal coat has not been used on asphalt macadam put down in this city heretofore, it gives the street the appearance of sheet asphalt.

## A FEW SUGGESTIONS FOR CORN CONTEST

Boys Entered in Gazette Competition Warned Not to Let Frost Injure Seed Corn.

(By Noyes Raessler.)

The month of October is over half gone and the time for picking good seed corn is drawing to a close. To the boys who have not yet harvested their acre plots, I have to say a word of warning; also to those who have still some seed corn to gather. Be sure you don't let Jack Frost beat you to it, for this reason: Corn that contains 10 percent of moisture can stand almost any amount of freezing, but when it contains 24 percent of water only 80 percent will grow, when it contains 40 percent moisture, as most of it does at husking time, practically none of it will grow.

These figures are based on actual experiments and accounts largely for so much poor seed every spring. Owing to the unsettled weather the work of harvesting those acre plots should be started at once by all who have not already finished and sent in their sample ten ears.

Remember that Nov. 1st closes the contest. All reports must be handed in together with the essay and ten ear sample in order to compete for those handsome prizes.

The Rock county corn contest is by far the greatest ever held in this state. At least three other counties are conducting contests of a similar nature this year, but I feel confident our boys will take the lead in yield as well as quality. In Rock county a total of only \$30 will be divided among the prize winners. The boys of Rock county are exceedingly fortunate in having an opportunity to compete for prizes which average more than five times this amount.

Should any further questions come up as to harvesting the plots, don't hesitate to ask questions of the contest editor or myself. We want you to have a fair chance in this contest.

## WOMAN IS LOCATED BY GAZETTE STORY

Mrs. Frank Seivert, 1023 Wall Street, is Person Designated to Receive Aged Woman's Legacy.

Mrs. Frank Seivert, 1023 Wall street, is the person referred to by the aged Minneapolis woman who died recently, leaving what little money she had to the girl who befriended her in Clinton some years ago. Mrs. Seivert had heard nothing of the old lady for fourteen years until she read the story in last night's Gazette. She telephoned to this office for further information and called this morning. She has written to Mr. Springer and will claim the legacy bequeathed to her.

Mrs. Seivert was employed at Clinton some fourteen years ago by her brother who was landlord of the old Commercial House which has since been razed to the ground. Miss Kates, then a woman of middle age, was known as "Dotty" and "Sully." She was very poor and worked as scrub woman at the hotel and at anything else that she could get to do. She lived in a small hut near the railroad tracks. She stayed in Clinton for about eight months, during which time Mrs. Seivert, then Miss Kath, was kind to her, giving her food and other articles at different times.

There is no better way to dispose of your house or other property as through the medium of the want columns.

## SOAP ON YOUR HAIR CAUSES DANDRUFF; SCALP GETS DRY, THEN HAIR FALLS OUT

Girls! Boys! Get a 25 cent bottle and try a "Danderine Hair Cleanse"—Save your hair!

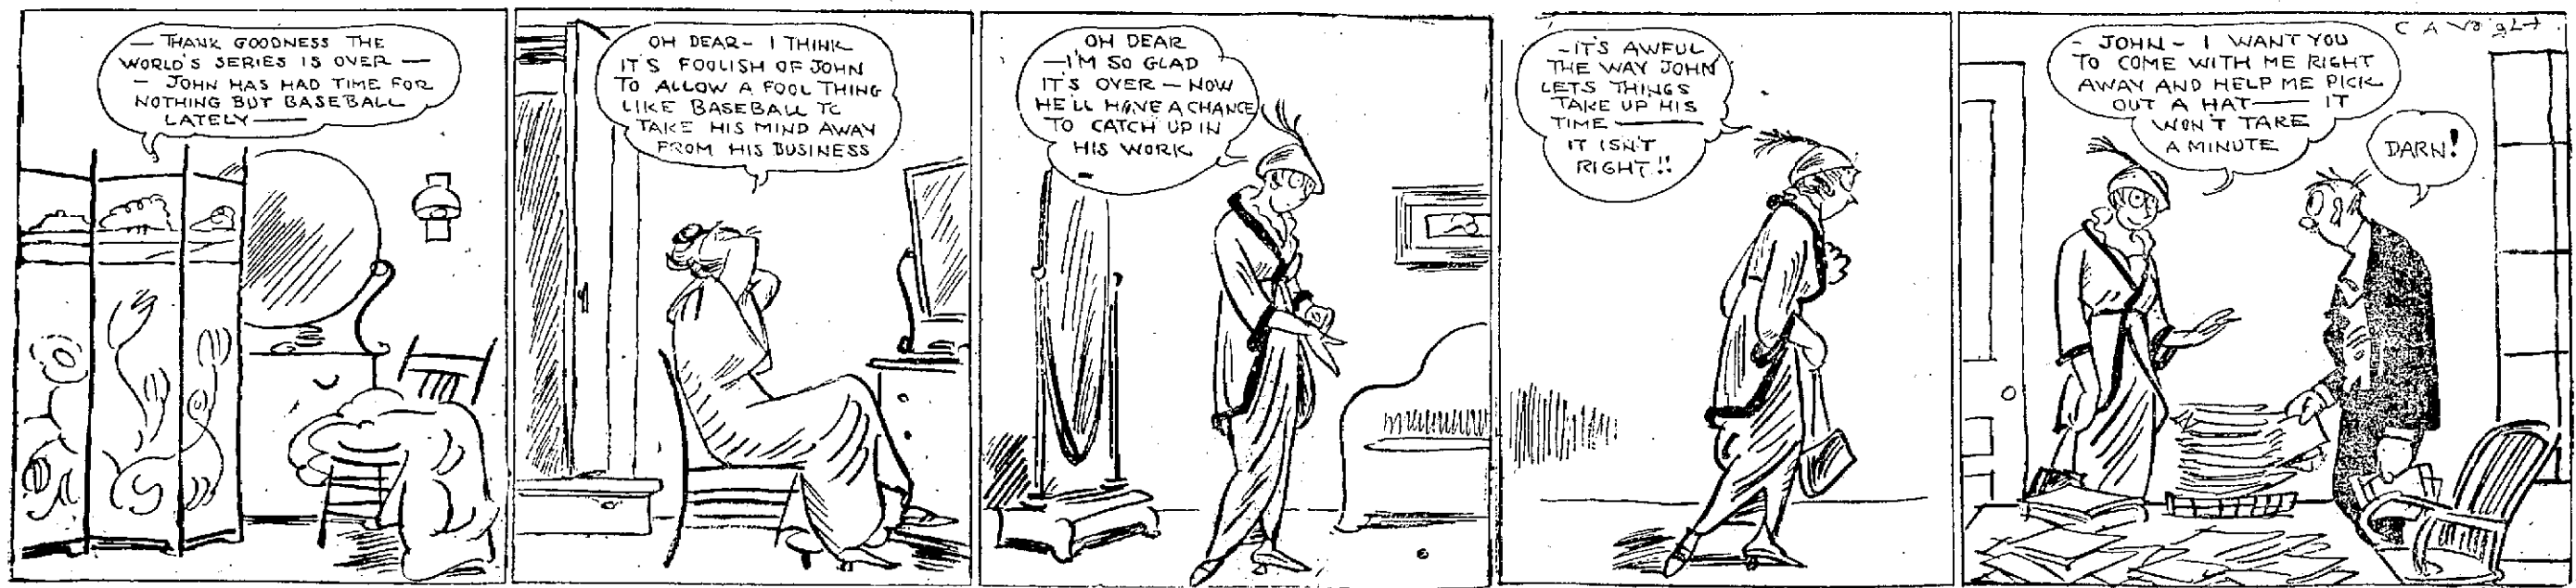

After washing your hair with soap always apply a little Danderine to the scalp to invigorate the hair and prevent dryness. Better still, use soap as sparingly as possible and instead have a "Danderine Hair Cleanse." Just moisten a cloth with Danderine and draw it carefully through your hair, taking one strand at a time. This will remove dust, dirt and excessive oil. In a few moments you will be amazed, your hair will not only be clean, but it will be wavy,

fluffy and abundant, and possess an incomparable softness and lustre.

Besides cleansing and beautifying the hair, one application of Danderine dissolves every particle of dandruff; stimulates the scalp, stopping itching and falling hair. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. It's exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.

Men! Ladies! You can surely have lots of charming hair. Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it.

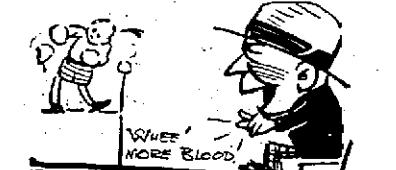

MRS. WORRY. BUT THERE IS ALWAYS TIME FOR IMPORTANT THINGS.

## SPORT Snap-Shots

Fouling seems to be the order of the day in Gotham boxing circles. And boxing in New York is said to be in danger as a result of the rough stuff that is being pulled off in every fight. The New York fight fans prefer the rough sort of mills and they are ever eager to see a fighter foul his adversary no matter how apparent it may be. Referees noting the public taste in this respect have allowed all the fouling that the fighters care to indulge in and the fans clamor for more. In the recent Carl Morris-Gunboat Smith bout Morris fouled repeatedly throughout the early rounds. The fact that Morris was disqualified at all is the surprising feature of the thing. Move over the New York fight fans show little sympathy for the victim of any fouling and cheer on the scrapper with the rough and tumble tactics. At the Morris-Smith fight, Smith, who suffered agonies from Morris' fouls, was hissed at the end of the

scrap when he left the ring. One New York referee ruled a new one the other day after a fighter had been fouled. He simply sent the fighter back to his corner. The injured fighter had recovered somewhat instead of disqualifying the opponent. Should a ruling such as this become popular the fighter who likes to foul will find it an easy matter to wear down his opponent and will be able to rough his way through many a battle.

We may as well prepare to see Connie Mack cop the pennant next season and perhaps for several more seasons. Nothing very much short of a miracle could ever step in and prevent the Athletics from grabbing the title again next season. Because

they are today a team of kids, still undeveloped and still growing. Consider their outfield. Eddie Murphy, Jimmie Wash, Amos Strunk and Ruben Oldring are by no means a bunch of septuagenarians. Look at the infield with Stuyvesant, a mere kid, Eddie Collins still well within the twenties, also Jack Barry. Frank Baker is comparatively a veteran, but he's by no means an old man yet and has quite a few years of valuable service in the big league ahead of him. The star backstop of the team, Wallie Schang, is another child wonder. Joseph Leslie Rush, our plying hero, is scarcely twenty. About the middle of the past season Connie Mack came right out and said that his outfit would win the pennant this year and they would also cop next season because he would have a better team next year than he has had this. A forecaster Connie is exceedingly reliable. We look to see him cop again next year.

Joe Bush, the Athletics' pitching phenom, made something like \$7,000 this past season. A very neat little income. The one on which follows: Bush's salary for his first season in fact company is somewhere in the neighborhood of \$25,000. A little more or less, perhaps, but the sum named seems reasonable. Add to that his share of the world's series which he won last year, and you will get \$2,544. If you're real quick at figures where'll he get the balance to make up the seven thousand, is the reader's intelligent query. Answer: Connie Mack will slip him something like that sum. It may be a generous one. The Athletics' long and lanky leader may be relied upon to reward Bush for the work he did for the Athletics the past season. Bush's achievement in winning the Giants 3 to 2 was the one real nunch of the series thinks Connie, and it's a safe bet that Bush will be rewarded. If he hasn't already been made happy with a little gift of \$1,000 or \$1,500 it's certain that his contract next season will call for that much of an increase. It's the Connie Mack way of getting results.

## RACINE ALL STARS TO PLAY WEDNESDAY

Reichert's Star Roller Polo Team to Reichert's Star Roller Polo Team to Open Trolley League at Local Rink Wednesday Against Moose.

On Wednesday night the Janesville Moose polo team will clash with "Fritz" Reichert's All Star team of Racine in the opening game of the Trolley league, formed two weeks ago between teams of Illinois and Wisconsin.

The Janesville team is well aware of the strength of their opponents, and have had some strenuous practice in preparation for the contest. In the division of the professional players, the local Moose team will secure the services of Hegener, who is considered one of the best goal tenders in the middle west. Last year he was the star of the Eastern league, playing at Worcester and Poughkeepsie. Griffith, another star of the Eastern league, will probably be in the Janesville lineup, and with Kilmer for rush, Schaffer rush, Blunk halfback and Connely half, the local men should be a match for the Racine men.

Janesville fans know the policy of the Racine team, led by Reichert, who is one of the best rushes ever seen on the Janesville rink. Corbell, who played one game here, is a veritable whirlwind on the rollers and is a great individual star. Tidie, center, W. Corbell, halfback, and Jones, goal, are the stars who compose the remainder of the team.

Rockford interurban officials, who are backing the Rockford team, promise to bring a delegation of business men from the Forest City to witness

the contest, and a large crowd of Janesville fans are expected.

## CRUCIAL GAME AT BELOIT SATURDAY

Gridiron Clash Between Janesville and Beloit High School Elevens May Decide Southern Wisconsin Title.

The time for the crucial game of the season for both the Janesville and Beloit high school elevens falls upon next Saturday, when these squads meet for their annual struggle at College field, Beloit. The contest is regarded as one of championship calibre, for both elevens are in the running for the title, despite the two defeats Janesville has suffered this season.

If Janesville defeats Beloit Saturday, they can claim the southern Wisconsin title without a doubt. When the locals met Edgerton, but four regulars faced the Tobacco city men, and again last Saturday, but six regulars faced Stoutsville. A win over Beloit and then defeat Stoutsville in the return match, would greatly favor Janesville as the strong contender in this section of the state, because Beloit put Edgerton out of the running by piling up a 35 to 0 score last Saturday, at Edgerton.

Efforts are now being made at the high school, to charter at least two special interurban cars for this annual contest, to carry the rooters to the game. From the present outlook, the game Saturday with Beloit, as Janesville's last chance to gain honors on the 1913 gridiron. The school spirit is rising, and more so, since it was learned yesterday that Atwood, the sturdy halfback, will be in the game. Dalton will fill the fullback position, with a possibility of the quarterback position being filled by another man. This decision will be reached after tonight's practice. Coach Curtis knows nothing of Beloit's eleven, and he is preparing his men to meet any attack which might have to be faced.

The eleven will scrimmage every afternoon this week, with the exception of Friday.

A severe blow was spread over the northern part of the state last Saturday, when the news spread that Tomahighs held the Oshkosh highs to a 0 to 0 score. Oshkosh was considered to be the best eleven in the northern section, and this result places Tomahighs as an equal contender for the state title. La Crosse and Madison appear strong, as do the Milwaukee division schools.

## COLLEGE FOOTBALL GAME ROMANCE IS CULMINATED

[SPECIAL TO THE GAZETTE.]

New York, Oct. 21.—A romance beginning on a trans-Atlantic liner and having a second chapter at a college football game culminated in the Little

Church Around the Corner today, when Miss Belle Van Gelder, daughter of a former prominent railroad official, became the bride of William D. Thomas of Evanston, Ill. While a sophomore at Dickinson college several years ago Thomas went to Europe on a cattle boat and returned on a liner as captain's messenger. Miss Van Gelder and her parents were on the return ship and the two became acquainted. Later the young man attended the football game in Philadelphia between the University of Pennsylvania and Dickinson college teams. Young Thomas was one of the Dickinson ends and scored the only touchdown of his team that day. But in doing so he was seriously injured and taken to the hospital, where he was nursed by his future bride, who had seen and applauded the brilliant play.

### "THE TIK-TOK MAN OF OZ"

"The Tik-Tok Man of Oz," Oliver Morosco's production of the fantastic fairyland extravaganza, fashioned from the tales of L. Frank Baum, with a pretentious musical score composed by F. Louis Gottschalk, will be presented at the Myers theatre on Saturday, Oct. 25. It is the most important production yet made by the California producer and represents three months of ceaseless effort on the part of the author, composer and a small army of scene painters, costumers and stage mechanics. In the story the story constructed by Mr. Baum from his remarkable and more than ordinarily popular stories is one that will have universal appeal to all classes of theatregoers. There is a brilliancy of ensemble, magnificent stage pictures, individual song hits, gorgeous costuming and electrical and mechanical effects which will add to this appeal. It depicts the adventures in fairyland of Betsy Bobbin, played by Lenora Noyes, and her pet mule, Hank, an animal characterization which is made one of the prominent features of the case by Fred Woodward. They are shown first in a prologue, the scene being that of a shipwreck and storm on the shore of the Rose Kingdom, ruled over by King Ruggedo, a part which gives Johnny Dunsmore ample opportunity for comedy work, as well as for the display of his wonderful basso. They are also joined by Princess Ozma, who is banished from the domain of the Rose Kingdom. This role will be portrayed by the well known prima donna of "The Pink Lady" fame. At the Cross Road they meet Polychrone, who has danced over her rainbow, and Tik-Tok, the clockwork man, and they too join in the search for Shaggy's brother, Polychrone will be played by Dolly Castles, a famous English comedienne, while the comedy part of Tik-Tok will be in the hands of James C. Morton. They finally arrive at the end of the Metal Forest, rescue Shaggy's brother and all ends happily. Others in the cast of a hundred are Charlotte Greerwood, as Queen Ann-Soloth; Sydney Grant, as Private Piles of the Army of Cogoboo; Mary Mooney, as Flash. A beauty chorus of fifty is a feature. Lavishness marks the entire production.

## SCAFFOLD GIVES WAY BENEATH WORKMEN

Fred Stabenow Badly Bruised About Head—Accident Took Place As Result of an Overload.

Fred Stabenow received three bad cuts about the head and other workmen slight bruises this noon, when a scaffold about eighteen feet above the ground floor of the new First National Bank collapsed under the combined weight of a quantity of brick and eight or ten laborers who were awaiting their turn to go down the ladder to eat their dinner. Stabenow received prompt medical attention and was able to be around this afternoon. He arrived in the city only last night. The reason why other workmen were not hurt was that the support of the planking gave way at one end only, forming a sharp incline down which the workmen slid and landed in heap. One man was looking at his watch at the moment the scaffold went down.

## BOOSTER AUTO RUN POSTPONED ONE DAY

Cold Weather, Overcast Skies of Early Morning, and Light Snowfall Delay Projected Trip.

Low temperature, overcast skies, and a light snowfall which it was feared would make the roads slippery, resulted in the postponement of the auto booster run from nine o'clock this morning until the same hour tomorrow morning. The cars are asked to assemble at one hour earlier, but will be given time for the distribution of banners and literature.

Thirty-five or more cars would have been in line for a start this morning had the weather been more auspicious at the hour set for starting. The Moose Band gathered at the Amerphol florist shop ready to start this morning but when it became known that a sufficient number of car owners were unwilling to brave the forbidding weather they were permitted to disband until tomorrow.

The first day's run will be through the northern and eastern sections of the county and take in Edgerton, Ft. Atkinson and Whitewater. Unless the weather tomorrow morning is more threatening than it was this morning a start will be surely made tomorrow morning.

## TAKE ADJOURNMENT IN LARCENY CASES

State versus Myers, Barrett and State versus F. W. Smith Put Over—Two Ninety Day Terms.

Adjournment was taken this morning in two criminal cases which had been set for hearing at ten o'clock, that of the State versus Myers, Barrett and the State versus F. W. Smith. The hearing of Barrett was set for Friday, October 24, and that of Smith for November 3. Smith is at liberty on five dollars bail, but Barrett will have to await his hearing in jail. Barrett, a negro youth seventeen years old, is charged with the theft of linen and china from a dining car valued at \$22, and Smith with robbing William W. Dierker of Orfordville of \$40. Barrett's case could not be taken up today because the witnesses against him, who are in Chicago, were not able to appear.

Ninety day terms at hard labor were meted out to two more men who pleaded guilty to charges of intoxication this morning; they were Michael Boyle and James Morris.

James Downing, for the want of a fine of \$25 and costs, got off after a day's confinement. Howard Monigold, also among those who imbibed too well, obtained his liberty by paying a fine of \$10 and costs.

## BEEF PRICE SOARS; TO GO STILL HIGHER

While the possibility of the price of beef reaching fifty cents per pound during the coming winter is being discussed throughout the country, solutions of the problem of American cattle shortage are being advanced. A strict law placing an embargo upon the export of beef is being pushed by congress as a means to check the soaring price, is stated by many of the United States authorities. The packers want a campaign of education among the American farmers to grow more beef. Free tariff of beef from Argentina is another solution, and as beef has gone into the free list, Argentina beef has begun to move toward the United States.

It is a difficult problem to keep a farmer from selling his calves to face with the high price of corn, that goes to make 'veal' into beef. He can get more for selling his corn unfed, than he can beef. According to many of those whose opinion is worth weight, the United States must look forward to Argentina for relief. A little of the South American beef has been coming into America by way of London, but in no quantity to relieve the poor. Within a season lines of steamers will bring beef direct from the Argentina packing houses to the American markets, reducing the shipping cost to half what it is now. The imported beef comes here in a chilled condition and measures up to the standard of the home product.

With the opening of the Panama canal Peru and other cattle raising provinces in South America will send a large per cent of their beef to this country where it will find a ready market. The obliteration of the cattle tick in the southern states, after a fight that has been waged for years, promises to boom the beef growing industry because it will facilitate the raising of the young cattle in the south and their transportation to the north for feeding. Government statistics show that in seventeen years the quantity of beef has decreased to twenty-three million head, this being due to the settling of the vast ranches in the west into small farms, raising family beef. Added to this there has been a shortage of corn, and the combination has been fatal to the beef price of meat. Nor does the drop alone affect the beef it has hit the sheep and hog growing also. Local butchers say they see no relief in sight for the high prices this winter and with beef retelling at eighteen cents per pound, it means that someone else besides the butchers is getting the profit.

## WANT TO SAVE HALF YOUR COAL BILLS?

## How Much Money Did You Spend For Coal Last Year?

Let us say you spent \$40. If there was a way in which you could buy that amount of coal this year for \$20, you would want to know about it, wouldn't you.

We can't sell you coal for half price, but we can tell you how to heat your entire home perfectly this winter at half the expense of last year's fuel.

With a FAVORITE BASE BURNER you can heat every room in your house comfortably on the coldest days, and do it with less fuel than is possible with any other heating stove.

Because the Favorite is the only base burner that pours heat into the room from every square inch of its surface.

It gets every atom of heat out of the coal and throws it all into the home. None goes up the chimney.

Your home is warm and comfortable on blustery, icy-cold days when with any other base burner your wife and children would be huddling in a frozen group around an apparently inactive stove.

In the triple exposed flues you will find one reason why the Favorite is such a wonderful heating stove. There are many other reasons. Come and see us and we will tell you all about them.

# WOMAN'S PAGE

## The Evening Chit-Chat

BY RUTH CAMERON

**"THE MAN I am in love with,"** a girl once said to me, "has only one vice—he smokes."

"To excess?" I asked.

"Oh, no," she answered. "Just moderately."

And she called that a vice!

May she never know any better than that what a real vice is. The attitude of many women towards smoking is something I simply cannot understand.

They seem to object to the habit not on any logical grounds but merely because it is something that they cannot share, and do not understand. Smoking is not like drinking—a habit dangerous and injurious indulged in to any degree at all. The only case the woman can possibly have against it is when it is indulged in sufficiently to injure health.

Myself, I do not see why moderate smoking should be called a fault—much less a vice.

And yet, to get a man to give up smoking, even when his indulgence is entirely harmless, many young women consider as a most praiseworthy achievement.

The same girl whom I quoted above later persuaded her fiancé to give up his smoking, which consisted of about three or four pipefuls a day, and was extremely jubilant over her success.

I wonder what she would have said if he had asked her, as a condition of matrimony, to give up her habit of eating candy between meals? Something very vigorous, I fancy.

And yet I've heard a good doctor declare that the candy eating habit is one of the most pernicious to health that there is.

Myself, I have seen too many men soothed and rested and comforted and made better-tempered by the influence of Lady Nicotine, to wish anyone who can smoke without smoking to excess to give up the habit.

Smoking for boys not yet grown—

Smoking as a habit that possesses the man instead of being possessed by him—

Smoking to a degree sufficient to injure a man's health or efficiency—

These are things for women to protest and fight against with all their might.

But smoking as a moderate indulgence not carried far enough to be injurious—I don't see why any woman should object to that.

And as for the wife who says to her husband: "Smoke if you smoke, but not in my nice clean house"—and I have known several such short-sighted women. Well, if I were a judge, it doesn't seem to me I should be inclined to be very hard on the man who wanted to divorce her.

soup bone you are really paying 6.3 cents. For a sirloin-round bone at 20 cents a pound you are paying 21.1 cents; roast beef—rump—at 12 cents, 12.8 cents; for round pot roast at 10 cents, 10.1 cents.

This will no doubt prove to you that the cheaper cuts are more economical, as food value is not in proportion to prices.

Now get this point! Food value is not in proportion to price. In plain words, you need not pay a high notch price to get good nourishing food for your family, if you know how to buy.

Keep in mind that the waste and shrinkage is no greater in the cheaper cuts of meat. Keep in mind also that if you know what you want and insist on getting it you are going to see a marked decrease in your meat bills.

If I have the three Talks that this paper has run on this subject and read them over until you DO understand them you will be doing your pocketbook a genuine service.

It is claimed that when anything hits the American pocketbook we all sit up and take notice. This meat question may be listed in that class. Meat we must have! Why not learn how to buy it, so that if we desire a roast we may not trudge contentedly home with a broiling piece under our arm, demonstrating that "ignorance is bliss?"

I called on one of our local doctors in regard to this meat talk. I was told that beef heads all the meats for all-around nourishment, that a good round steak, that WAS a round steak, was about the best investment in this line, for the money spent. It was all boiled meat, and if properly cooked was very nourishing for any member of the family. Of course, he did not mean to feed it to the new baby, or to the people who are near the foot of the hill in life's journey.

Good common sense must be used in all things. We are not going to induce the butcher to lower the prices on his goods, but we can by wisely buying get the most possible returns for the least possible expenditure.

Again we face the question that will peer anxiously (accusingly?) at women through all the ages: Are we doing our level best in every phase of our home life? Candidly, now, are we? You answer.

## THE KITCHEN CABINET

**MAKE** is to the appetite what mirth is to the melancholy.

A clear soup, a bit of fish, a couple of entrees and a nice little roast. That's my kind of a dinner.

—Thackeray.

## MORE GOOD EATS.

**Make a rich biscuit dough, roll it out in a thin sheet and cover thickly with chopped apples; roll up and cut in slices about two inches thick. Place in a well greased pan and pour over the following sauce: Mix a tablespoonful of flour with a cup of sugar, add a cup of boiling water, a tablespoonful of butter and a grating of nutmeg; stir until it thickens, then pour over the dumplings. Bake in a hot oven. Serve with cream and sugar.**

**Potato Pancakes.**—Pare and grate nine potatoes; let stand one hour and drain off the water. Add a beaten egg, salt and pepper, two teaspoonfuls of baking powder and flour to make a batter a little stiffer than ordinary griddle cake. Fry and serve with crisp bacon.

**Banana Omelet.**—Put two tablespoonfuls of sugar into an omelet pan, shake it about so that it covers the entire bottom. Cut a banana in slices and lay on the sugar, heat gently to melt the sugar and fry the banana. Turn the slices and heap in the center of the pan so that they will form a layer on the outside of the omelet. Put in a half tablespoonful of butter, then the beaten yolks, letting it cook a bit before adding the white of two eggs. As soon as the whites are added fold the omelet and serve.

**Corn Bread, Southern Style.**—One pint of sifted corn meal, one pint of thick buttermilk, two eggs, two teaspoonfuls of melted lard, one teaspoonful of salt, one of soda. Mix all together and beat well before adding the soda; then add the soda dissolved in a tablespoonful of hot water. Stir well and pour into a hot buttered baking pan.

**Silver Cake.**—This may be one we will enjoy reading over; but not many will feel they can afford to make it: Take a pound of sifted flour and add it a little at a time to three-fourths of a pound of creamed butter; add a pound of sugar to the whites of sixteen well beaten whites, then add to the butter and flour, four teaspoonfuls of baking powder is added to the flour. Stir with the hand until all are well mixed. Add a teaspoonful each of lemon and vanilla or any flavor desired. Bake in a paper lined pan in a slow oven until well baked. Ice with boiled frosting. This cake is worthy the name of wedding cake.

**Flowers of Music.**

The graces—namely, the shake, the turn, the appoggiatura, etc.—are the flowers of music; and the clear, correct, and delicate execution of them embellishes and exalts every melody and every passage. But when they are played stiff, hard, or unintelligibly, they may rather be compared to blots of ink or spots of dirt.—Carl Czerny.

**Drawback to Holidays.**

Holidays would be more enjoyable, as a rule, if they didn't make you so sorry for the people who are working themselves nearly to death trying to amuse you.

## SOME MENUS AND RECIPES.

### Breakfast.

Fried Apples Creamed Codfish

Southern Corn Bread

Preparation—Make the corn bread first as it will require the full time for baking. While that is baking, the apples are frying in bacon fat, and the codfish is creamed. Set the table and make the coffee.

### Lunch or Supper.

Curry of Vegetable Soup

Broiled Rice with Brown Sugar

Thick Squares of Toast

Tea

Preparation—Make the soup so as to give it the full time over a slow

fire. Twenty minutes before the meal prepare and cook the rice according to recipe given in September menu. While this is cooking set the table, toast the bread and have the dishes hot for the soup. All hot dishes should be served on hot dishes and plates.

### Curry of Vegetable Soup.

Materials—Diced carrots, one and one-half cups; diced turnips, one and one-half cups; chopped onions, three-quarters cup; chopped parsley, two tablespoonfuls; bay leaf, one; butter, two tablespoonfuls; flour, three tablespoonfuls; hot stock, one quart; salt, paprika, curry powder, one teaspoonful; grated apple, one.

Directions—Put the carrots and turnips into the stew pan; cover with boiling water; boil until nearly done and then add the potatoes, and cook until all are tender. In the spider put the butter and cook the chopped onions until tender and slightly brown. Add the flour and stir until well blended. Gradually add the hot stock, stirring constantly, until smooth. Add seasoning to taste and the curry, the grated apple, drained vegetables, and the uncooked celery. Cover and simmer very gently until the celery is done. Add the parsley and serve at once. More or less hot stock may be added to such individual tastes, or all may be put through a sieve to make a vegetable puree soup.

This is a good luncheon soup or as the main dinner dish, and is very cheap.

## HOUSEHOLD HINTS

### THINGS WORTH KNOWING.

The ripeness of a pineapple may be tested by pulling its leaves. If they do not pluck readily, the pineapple is not ready to be used.

To warm up a joint, wrap it in thickly greased paper and keep it covered while in the oven and the steam will prevent the meat from becoming hard and dry.

Don't add milk to kugel until it is thoroughly cooked, and the composition of the milk will not be injured. A quart of milk will not contain four cups, measured by the cooking-cup measure.

### THE TABLE

**Pineapple Snow.**—Dissolve two heaping tablespoonfuls of powdered gelatin in half a cupful of boiling water. Chop one good pineapple or one and a half pint can, add one cupful of sugar and one and a half cupfuls of boiling water. Cook slowly for ten minutes, remove from the fire, add the dissolved gelatin, strain into a basin and cool. Beat in the whites of four eggs stiffly, gradually add the mixture, beating all the time till it begins to thicken. Pour into a wet mold. Turn out when set and serve with a soft custard.

**Cranberry Pudding.**—Beat two cupfuls of cranberries, two cupfuls of flour, four tablespoonfuls of shortening, two eggs, one cupful of milk, four teaspoonfuls of baking powder and one teaspoonful of salt. Rub the shortening finely into the flour, add the baking powder, salt, the milk gradually, eggs, well beaten and cranberries washed and dried. Pour into greased popover pans, cover and steam for one and one-half hours.

**Angel Pudding.**—Beat two cupfuls of butter and four ounces of sugar together, add four ounces of flour, two cupfuls of thick sweet cream, flavor with vanilla and fold in the stiffly whipped whites of four eggs. Bake in well buttered popovers and cover with a very stiff meringue.

**Egg and Pepper Sandwiches.**—Six green peppers chopped fine, three hard-cooked eggs rubbed through a sieve, one cupful of chopped nut meats, one small lettuce chopped fine, one cupful of cooked bacon chopped fine and enough mayonnaise to hold together. Spread between buttered rounds of bread.

**Angel Pudding.**—Beat one teaspoonful of canned corn, add one teaspoonful of cracker-crumbs, one egg well beaten, two tablespoonfuls of cream, one

teaspoonful of minced onion, one-half of a teaspoonful of salt and one-third of a teaspoonful of white pepper. Mix thoroughly and form into balls about the size of a walnut. Arrange them in a buttered baking-dish and bake for fifteen or twenty minutes. Serve with tomato sauce made as follows: Blend one tablespoonful of butter with the same amount of flour, add one teaspoonful of tomato juice and one teaspoonful of chopped parsley. Cook for five minutes, then season with one-third of a teaspoonful of salt, one-fourth of a teaspoonful of cayenne pepper, five drops of onion-juice and one teaspoonful of chopped parsley. Pour the mixture over the corn balls and serve them garnished with parsley.

**Queen's Pudding.**—Dissolve four tablespoonfuls of cornstarch in a little cold water and add it to one pint of boiling water with two tablespoonfuls of sugar and a pinch of salt. Let boil for fifteen minutes, stirring constantly, take from the fire and add vanilla flavor, and the stiffly whipped whites of three eggs. Mix well, and turn into a bowl to harden. Serve ice cold with vanilla sauce.

**Chicken Ring.**—Cut "up" one chicken for boiling and boil until nearly done. Scrape all the meat from the bones. When cold, pack solidly into a ring shape, holding together with a cloth pinned around. Put this in a pan for roasting and fill the center with dressing—chestnut or any kind preferred—and over all pour slowly all of the chicken gravy that will be absorbed. Then pour over a quart of rich milk. Roast, using the milk for basting. Serve the gravy formed with it.

**Nut Bread.**—Two cupfuls of flour, two cupfuls of Graham flour, one egg, one teaspoonful of salt, one cupful of English walnuts, one and a half cupfuls of milk, four teaspoonfuls of baking powder, one cupful of molasses or sugar.

**Angels Pudding.**—Beat two cupfuls of butter and four ounces of sugar together, add four ounces of flour, two cupfuls of thick sweet cream, flavor with vanilla and fold in the stiffly whipped whites of four eggs. Bake in well buttered popovers and cover with a very stiff meringue.

"The Flying Boat," Carl Schooff. "Earthquake at Panama," Willard Bennett.

Debate, "Resolved, That the state should supersede national government in control of the natural resources." Affirmative, George Spohn and Stewart Pond. Negative, Mark Jones and Harry Fuchs. The negative earned a 2 to 1 decision.

"My Experience as a Railway Time-keeper," Joe Franklin.

## HEART and HOME PROBLEMS

MRS. ELIZABETH THOMPSON

Dear Mrs. Thompson: I am compelled to go to my dentist evenings. The work on my teeth is about half finished. Last night the dentist, who is old enough to know better and who holds a very respectable position in town, kissed and embraced me in spite of my objections. I am only a young girl. What shall I do? I know of nobody else who can finish my dental work and I don't want to have this go on any more.

Do not go to the office alone any more. Take somebody with you, even if you have to hire a small boy to stay in the room with you.

Dear Mrs. Thompson: (1) In escorting company into the parlor, should the lady of the house take the lead, or let them go in first and her follow?

(2) Is it proper to thank people when they say they are "glad to have met you?"

(3) Should a lady walk ahead of the gentleman when getting on a train?

(4) A girl friend of mine is to be married soon. She has asked me and a boy friend of mine to stand up with them. They are going on a train to another town to be married. Who should pay the expenses? Should the bridemaid offer to pay her own car fare?

KENTUCKY BLUE BELL.

(1) The hostess may stand at the doorway and invite her guests to enter.

(2) Tell them it is a mutual pleasure.

(3) The lady should go first, helped up the steps by the man.

(4) The bridemaid will have to pay her own car fare unless the best man would like to pay it for both her and himself.

Dear Mrs. Thompson: Please give me a cure for the following:

(1) Liver spots.

(2) Pimples and blackheads.

(3) Freckles.

(4) Bad breath.

A READER.

(1) See a doctor about this.

(2) Cleanliness inside and out. Eat plenty of vegetables and fruit and no fatty foods, rich gravies, candies, pastry, etc. Drink three pints of water every day, between meals. After bathing the face at night in hot

water with a good soap, rub in a pure oil, deodorized, then wipe off carefully. After a few days the pimples and blackheads will be soft enough to prick with a needle and press out, after which anoint each spot with peroxide. Patiently following these rules will in a few months give you a skin free of pimples and blackheads, but you must keep everlastingly at it. Drink a good deal of lemonade and orangeade, also, and avoid taking cold.

(3) Buttermilk or lemon juice will fade them.

(4) You may have a bad stomach or bad teeth. See that these are corrected. Then keep your teeth clean with a good tooth powder or paste. Use a toothpick on the teeth after eating. Charcoal tablets are often good to banish bad breath when it comes from the stomach.

Dear Mrs. Thompson: I am a young man about sixteen years of age, and have been keeping company with a girl about the same age. I had a date with her one night, but I did not come, as I was working and I did not let her know that I wasn't coming, so she got angry at that. But she broke some dates with me and I did not say anything. Now she says I cannot come to see her any more. Whose place do you think it is to make up, mine or hers? She is a nice girl, and I hate to give her up. What can I do to gain her friendship again, if it is my place to make up.

You were rather inconsiderate, Abe, when you broke your appointment with her. She got all ready for you and waited for you. If you had let her know you could not come it would have been all right. The thing to do now is to go to her and tell her that you know you were wrong and you are very sorry, and if she will accept your sincere apology you will promise not to do such a thing again—that you will at least try to notify her if it is impossible to keep an engagement with her. If she is a nice girl, she will make up with you.

## EVENING FROCK OF YELLOW SATIN

### ECZEMA SPREAD ALL OVER BODY

Began on Cheeks With Pimples. Itched Badly. Caused Disfigurement. Had to Put Mittens on Him. Used Cuticura Soap and Ointment. Eczema Left Him.

Rosbury, Ohio. — "When my little boy was two weeks old he began breaking out on his cheeks. The eczema began just with pimples and he seemed to itch so badly he would scratch his face and cause a matter to run. Wherever that matter would touch, it would cause another pimple until it spread all over his body. It caused disfigurement while it lasted. He had fifteen places on one arm and his head had several. The deepest places on his cheeks were as large as a silver dollar on each side. He was so restless at night we had to put mittens on him to keep him from scratching them with his finger nails. He could not sleep because I put those mittens on which would not allow him to scratch and then he would wake up and be cross. If he got a little too warm at night it seemed to hurt badly.

"We tried a treatment and he didn't get any better. He had the eczema about three weeks when we began using Cuticura Soap and Ointment. I bathed him at night with the Cuticura Soap and then the Cuticura Ointment on the places that were itchy. (Signed) Mrs. John White, Mar. 10, 1913.

Cuticura Soap and Ointment do so much for poor complexions, red, rough hands, and dry, thin and falling hair, and cost so little, that it is almost criminal not to use them. Sold everywhere. Sample of each mailed free, with 25-cent book on the skin and scalp. Address post-card "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

### DOES YOUR HAIR SPOIL YOUR FACE?

If your glass reflects good looks—nice features that would make you considered pretty if only your hair were more becoming—don't you mourn about it. Instead of mourning or envying others whose hair is prettier than yours, use Harmony Hair Beautifier, and let others envy you. It is a delightful liquid hair dressing that beautifies the hair—makes it glossy, softer, easier to put up in graceful wavy folds that will "stay put." It polishes the hair until it shines, and overcomes the unpleasant, oily odor, with a delightful fresh rose fragrance. Harmony Hair Beautifier is very easy to apply—simply sprinkle a little on your hair each time before brushing it. Contains no oil; will not change the color of hair, nor darken gray hair.

To keep hair and scalp, dandruff-free and clean, use Harmony Shampoo. This pure liquid shampoo gives an instantaneous rich lather that immediately penetrates to every part of hair and scalp, and cleanses very easily, quickly, the entire operation takes only a few moments. Contains nothing that can harm the hair; leaves no dryness or stickiness—just a sweet cleanliness.

Both preparations come in odd-shaped, very ornamental bottles, with sprinkler tops. Harmony Hair Beautifier, 8 oz. bottle, 50c. Harmony Shampoo, 50c. Both guaranteed to satisfy you in every way, or your money back. Sold in this community only at our store—The Rexall Store—one of the more than 1,000 leading drug stores of the United States, Canada and Great Britain, which own the big Harmony laboratories in Boston, where the many celebrated Harmony Perfumes and Toilet Preparations are made.

### UNCLE WALT The Poet Philosopher

Copyright, 1909, by George Matthews Adams

BY WALT MASON

Goliath, tall, majestic, grand, wore a forbidding scowl. "I am a wolf," he bellowed, "and this is my day of howl." He was the bully of the place, as history agrees; whenever people saw his face they climbed the nearest trees. With fear, as they for safety liked; Goliath, fresh from Bitter Creek, just bossed things as he liked. And so this champion of champions stood forth in brave array. "I like," he said, "to cast my lamp on any chesny jay who thinks that he can poke my bean or jolt me in the neck; if such there be, let him be with me—ill make of him a wreck." Then round the corner David came—a gentle youth was Dave; too young to know the fighting game, too young, indeed, to shave. But in his craw he had of sand a large and goodly store; he held a slinger in his hand, bought at the ten-cent store. He heard the proud Goliath's sneer, and said: "Such piffle makes your little nephew David feel some fifty-seven years old. Just watch me while I wing the gus and stop his loud buzz! He hit Goliath in the eye; the people yelled "Hurroo!" And even in these bandum days such things do often chance; the braggart brays, and while he brays he nuds his name is Pance.

### SEASONABLE ADVICE TO FRUIT GROWERS

George Kellogg in Letter to Gazette Urges Protection of Trees from Mice and Rabbits.

Editors Gazette:

Tens of thousands of fruit trees are killed every winter by mice and rabbits, and the law protects one of the nuisances. I don't believe a law protecting a nuisance should be constitutional.

For the mice clean away from every tree, shrub and grape vine the grass and rubbish and mound up with fresh earth the size of a water pail. I have always found it a sure protection against mice. I once had them come across the road from a neighbor's meadow and destroyed a nice lot of roses that were covered by a layer of earth for the winter. I mounded up with earth for the winter them back to within a foot of the ground in the spring. All climbers should be covered with earth and inverted sods. Many can be mounded and wrapped with burlap and left standing, also half hardy shrubs.

For rabbits, pay the boy twenty-five cents for every rabbit killed. But don't depend on this. Wrap every tree with burlap, marsh hay, corn stalks tied about them, or rye straw, burlap or a newspaper.

Now is the time to do this. If the trees have been only growing a year or two leave on the wraps to protect the bodies from sun scald and borers through the summer. Every tree planted should be wrapped from the top to one hundred inches in place. Corn stalks laid on carefully are good.

Prune the grapes this and next month. Cut off three-fourths of all this year's growth. Cut back to two buds and cut out all feeble growth.

### Watch Carefully the Child's Diet

Start Them Off Right With a Good Laxative and Then Watch Their Food.

Mothers are often unconsciously very careless about the diet of their children, forcing all to eat the same foods. The fact is that all foods do not agree alike with different persons. Hence, avoid what seems to constipate the child or to give it indigestion, and urge it to take more of what is quickly digested.

If the child shows a tendency to constipation it should immediately be given a mild laxative to help the bowels. By this is meant a physic or purgative, for these should never be given to children, nor anything like salts, pills, etc. What the child requires is simply a small dose of the gentlest of medicines, such as Dr. Caldwell's Syrup Pepsin, which, in the opinion of thousands of watchful mothers, is the ideal remedy for any child showing a tendency to constipation. So many things can happen to a constipated child that care is necessary. Colds, piles, headaches, sleeplessness, and many other annoyances that children should not have can usually be traced to constipation.

Many of America's foremost families are never without Syrup Pepsin, because one can never tell when some member of the family may need it. It can be used by thousands of people, it is pleasant to the taste, it is also mild and non-gripping and free from injurious ingredients.

Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. B. Caldwell, 413 Washington St., Monticello, Ill. A postal card with your name and address on it will do.
